FOR IMMEDIATE RELEASE

Stamford, CT (July 31, 2012) – Attention all pets and pet owners! You are going to want to know about this unique facility opening in Stamford in early September, that combines the totality of pets' needs under a single roof. That's healthcare, wellness, recreation, grooming, boarding, day care and supplies – all available in one place at one time!

The innovator of this “one stop” concept is owner and Veterinarian, Dr. Marcus J. Suppo, who believes that taking care of, and catering to, pets, should be simple and convenient for their owners and families. *“People love and care about their pets as family members. After all, why shouldn't a pet owner be able to have a dog vaccinated and groomed under the same roof? That is what we do – we draw an important nexus between pet services, and remove the inconvenience from the equation,”* said Dr. Suppo.

Soon this philosophy comes to life at Dr. Suppo's new facility at 633 Hope Street in the quaint Springdale hamlet of Stamford. Here you will find a beautiful and contemporary 10,000 square foot Veterinary Center ready to serve all your pets' needs. Dr. Suppo offers, *“When it comes to the deliverables of our business, we spare no expense in terms of construction and equipment. Our facility will afford the utmost comfort for boarding accommodations, as well as the most modern medical equipment.”*

Dr. Suppo previously developed this business footprint. He owned the Mamaroneck Veterinary Hospital & Pet Resort in Westchester County, NY, for 11 years. During his tenure there, he completely renovated a building, constructed a second building, and transformed the land to accommodate a hospital, kennel and salon. The facility boasted the only canine swimming pool in Westchester County and even beyond. Ultimately, this facility morphed into one of the most respected and revered kennels in the area.

Here in Stamford, the business model will be enhanced to offer complete pet care solutions to today's busy pet owners. *“We will have available Concierge services to all our clients who wish to have their pets picked-up or dropped-off for medical appointments, grooming, boarding and day care. They will ride in the comfort and safety of our climate-controlled extra large van. As well, we would be happy to deliver pets' prescriptions and food to their owners' doors,”* says Dr. Suppo.

To thank the community for welcoming us, and to commemorate our Grand Opening, we will be administering free rabies vaccinations to the first 100 patients who need it. Please check our website periodically (www.stamfordvetcenter.com) to learn when our Grand Opening will be, as well as details of this special offer. We look forward to meeting members of the community and to serving your beloved pets for years to come.
